Company Overview

Founded in 1972, we are a national off-price retailer of high quality branded apparel, operating 541 stores as of February 28, 2015, inclusive of an internet store, in 44 states and Puerto Rico. We are a market leader in the fast growing off-price retail channel. We offer our merchandise using an Every Day Low Price (“EDLP”) model with savings up to 60-70% off department and specialty store regular prices. We provide our customers an extensive selection of better and moderate, fashionable branded product in women’s ready-to-wear apparel, menswear, youth apparel, baby products, footwear, accessories, home goods and coats. We feature merchandise from approximately 5,000 vendors, with a focus on major nationally-recognized brands. This vendor breadth provides our customers with a “treasure hunt” experience of searching for great brands at great value.

We believe the breadth of our selection and our ability to successfully operate in stores of varying square footage represent a competitive advantage. Our average store size is approximately 78,000 square feet. We believe that as we continue to reduce our comparable store inventory, we will be able to reduce the square footage of our stores while continuing to maintain our broad assortment. As a result, we believe major landlords frequently seek us as a tenant because the appeal of our apparel merchandise profile attracts a desired customer base. In addition, we have built long-standing relationships with major shopping center developers.

Large and Growing Off-Price Channel

We operate within the large and growing off-price channel in the United States. According to The NPD Group, the off-price apparel channel grew at a 5% compound annual growth rate during the four years ending December 2013. Over that period, sales in the off-price channel have grown over 10 times faster than the department store and national chain channels. We believe that the increasing demand for the off-price channel will continue to be driven by consumers’ growing focus on, and preference for, the value available at off-price retailers.

Our Competitive Strengths

Leading Destination for On-Trend, Branded Merchandise at a Great Value

We offer a broad and compelling assortment of on-trend, branded apparel and related merchandise. We carry substantially more breadth in each product category than our largest off price competitors, including branded apparel for various lifestyles, fashion preferences and sizes. We have a long heritage of leadership in select core categories including coats, youth and baby, special-occasion dresses and men’s tailored apparel. We employ a broad merchandising strategy that provides the customer with a wide range of choices and a limited number of units per style, which fosters a sense of scarcity and urgency to purchase now. The frequent arrival of new merchandise to our stores encourages our customers to return to our stores regularly.

Compelling Value and Every Day Low Price Model

We employ an EDLP model that offers customers savings of up to 60-70% off department and specialty store regular prices. Our price tags feature a “compare at” price, indicating the savings for the customer. We believe our EDLP approach contributes to a simpler and better value proposition by eliminating the customer’s need to wait for sales, use coupons or participate in loyalty programs to realize savings.

Flexible Off-Price Sourcing and Merchandising Model

We aim to purchase the majority of our merchandise in-season, with our merchants spending time weekly “in-market,” buying on-site from vendors, to take advantage of the latest fashion trends. We seek to optimize our “open-to-buy,” which is the portion of our inventory receipt budget that remains “unbought” at any given point. We believe, as a result of how we manage our open-to-buy position, our merchants are able to execute compelling purchases opportunistically from our vendors. We have long-standing relationships with thousands of leading vendors, including many of the world’s largest apparel manufacturers, and no one vendor accounts for more than 2% of our merchandise. We believe that merchandise vendors, including those with whom we work, increasingly view off-price retail as an attractive channel through which to reach their customers.

We consistently evaluate new vendors to add to our portfolio and review existing vendors to ensure that we have access to the best products and brands at great value. We believe that our in-season buying strategy and broad vendor relationships allow us to provide our customers with consistently fresh, on-trend and high quality offerings across a broad range of categories.

Attractive Store Economics

We have a proven and attractive store model that generates strong cash flow and consistent store-level financial results. We have opened an average of 23 new stores per year since 2006 and our new stores have an average payback period of less than three years. As of January 31, 2015, over 98% of our stores were profitable on a store-level cash flow basis, and we believe we have considerable room to grow profitability. Our stores have been successful in varying geographic regions, population densities, store footprint sizes and real estate settings. We believe our robust store model, reinforced by our site selection process and in-store execution, is driving improved consistency in performance across our store base.

Proven Management and Merchant Team with Off-Price Retail Experience

We have assembled a strong and empowered management team with a median experience of 28 years in the retail industry and a median tenure of six years with us. Our management team has complementary experiences across a broad range of disciplines in the retail industry, including at other leading off-price retailers, department stores and specialty stores. Our management team, through our incentive equity plan, is aligned with the objectives of our stockholders.

Recent Strategic Initiatives

In December 2008, we hired Tom Kingsbury as President and CEO to help define and lead our transformation. Since then, we have made significant investments in people, processes and systems to transform our business. We believe that we are in the early stages of realizing the return on these investments, which we expect will result in continued growth and enhanced profitability.

Assembled a Talented, Experienced Management Team

Under Mr. Kingsbury's leadership, we have assembled a proven and successful management team with significant retail and off-price experience from various best-in-class retailers. In 2015, we hired Rick Seeger as our Executive Vice President of Planning and Allocation and promoted Marc Katz from Executive Vice President of Planning and Allocation to Executive Vice President – Chief Financial Officer.

Refined Our Off-Price Model Through Improved Buying, Inventory Management and Supply Chain Investment

We have refined and improved our execution of our off-price model and redesigned our merchant organization to provide more clear and distinct roles where our buyers focus primarily on buying and the support team focuses on planning and allocation, and we now have information systems that support data-driven decisions for both. We have also made significant investments to upgrade talent across these functions. We have increased our portion of in-season versus pre-season buys to increase the freshness of our merchandise offering. This strategy puts us more in line with our primary off-price competitors, as opposed to department stores, which primarily purchase pre-season. In part due to this focus on inventory freshness and providing great values, from May 31, 2008 to January 31, 2015 our comparable store inventory turnover rate increased by 107% and our inventory aged 90 days or older decreased by 75%. For the fiscal year ended January 31, 2015 ("Fiscal 2014"), comparable store inventory turnover increased 22% and inventory aged 90 days or older decreased 47% compared with the fiscal year ended February 1, 2014 ("Fiscal 2013").

We have improved our access to the highest quality nationally-branded products through our network of approximately 5,000 vendors. We have renewed our emphasis on buyers spending time interacting face-to-face with new and existing vendors and on continuously evaluating fashion trends and emerging businesses. Over the last two years, we have invested in our supply chain infrastructure to support our off-price buying model. We expect to continue to invest in our supply chain infrastructure to facilitate our ongoing growth. In addition to our East Coast buying presence, we opened a West Coast buying office in 2013 to better enable access to vendors in that region. We are focusing on brands relevant to our customers, which we believe will drive traffic to our stores. In order to improve our buying decisions, we formalized a new framework that we believe will help our merchants continue to deliver great brands and great values to our customers.

Invested in Technology and Systems to Drive Growth and Improve Efficiency

Since 2009, we have also invested approximately \$50 million in new, best-in-class information technology and merchandising systems solutions across our business functions to enhance the consistency of our execution and to improve the scalability of these functions across a growing store base. We believe our new merchandise planning and customized, in-house allocation systems, combined with our recent focus on developing the capability to localize inventory allocation, will help us to improve sales and margins by ensuring that we plan and allocate the right product to the right store at the right time. Our business intelligence system provides improved data visibility and allows us to identify trends to which our merchandising team can opportunistically respond. Our markdown optimization system is designed to maximize sales and total margin dollars by recommending markdowns at the style and color level to achieve defined sell-through targets and exit dates.

Built Data-Driven Testing Culture to Ensure Successful Rollout of New Initiatives

In addition to our investments in specific systems, our management team has built a strong data-driven testing culture. We regularly launch tests of new initiatives and rigorously measure effectiveness prior to

chainwide rollout. For example, in 2012 and 2013, we tested a new in-store merchandising fixture for kids', men's and women's shoes. After observing significant sales lift, we are rolling this fixture out in all existing stores and our new stores. Our improved testing capability has begun to enable us to drive growth in an increasingly predictable manner while minimizing distraction to our store team.

Sharpened Focus on Our Core Female Customer

We have focused on better serving our core female customer: a brand-conscious fashion enthusiast, aged 25-49, with an average annual household income of \$25,000-\$75,000, by improving and expanding our offerings for her and by building on our strength in categories for her family, such as youth and baby, special occasions and menswear. We launched a new marketing campaign that specifically targeted our core customer and continue to refine our efforts to increase the frequency of her visits and average spend. As an early indicator of the success of this initiative, Fiscal 2014 and Fiscal 2013 comparable store sales growth for women's ready-to-wear apparel (excluding coats), our single largest product category, was over 4% and 6%, respectively.

Introduced Program to Improve Customer Experience and Store Operations

We aim to deliver an easy and consistent customer experience. We have significantly enhanced the store experience and ease of shopping at all of our stores by simplifying our merchandise presentation, implementing a comprehensive program focused on offering more brands and styles and improving store navigation. We have accomplished this by utilizing clear way-finding signs and distinct product signage, highlighting key brands and new arrivals, improving organization of the floor space, reducing rack density, facilitating quicker checkouts and delivering better customer service. We have made particular improvements in product size visibility, queuing and fitting rooms.

To ensure consistent execution of our customer experience priorities, we have improved our store associate training, reorganized and strengthened our field management organization, implemented a store labor scheduling system and revamped our employee satisfaction program. In addition, since 2009 we have hired more than 300 new store managers from outside our organization, many from best-in-class retailers including our competition. These initiatives have better aligned store management and labor staffing to operational priorities, improved the customer experience and resulted in approximately a 450 basis point reduction in store payroll as a percentage of sales from 2008 through 2014.

We recently converted from a customer phone survey to a web-based survey which provides more detailed, actionable customer feedback. We believe this method is going to allow us to further improve our overall customer satisfaction scores. We have also implemented operational audits to measure performance against clearly defined operational standards. To date, our stores that have achieved higher audit scores have generated higher comparable store sales.

Refreshed Our Existing Store Base

As of January 31, 2015, 74% of our stores were either new, refreshed, remodeled or relocated since 2006. In our refreshed and remodeled stores, we have incorporated: new flooring, painting, lighting and graphics, relocated our fitting rooms to maximize productive selling space and made various other improvements as necessary on a store-by-store basis. We continue to invest in store refreshes and remodels on a store-by-store basis where appropriate, taking into consideration the age, sales and profitability of a store and the potential customer satisfaction improvement.

Enhanced Real Estate Analysis and New Store Selection Process

We have reengineered our new store development process to utilize more sophisticated criteria for real estate site selection and to reduce our total new store investment. Our real estate process consists of a review of

demographics, population density, cannibalization impact, traffic patterns, competitive dynamics, co-tenancy considerations and ease of access, in order to meet acceptable return criteria. We have partnered with landlords to increase the landlord funded tenant improvements in new stores and have improved our opening inventory to increase cash-on-cash returns. Under our enhanced real estate selection process, we opened 23 new stores in Fiscal 2013, which, on average, have performed in line with our expectations and ahead of our required payback hurdles. During Fiscal 2014, we opened 24 new stores.

Our Growth Strategies

We believe there are significant opportunities to drive sustainable sales and margin growth. We believe each of the initiatives discussed above will play an important role in our ability to execute on our growth strategies, given the recency of their implementation as shown in the below timeline.

Driving Comparable Store Sales Growth.	
We intend to continue to increase comparable store sales through the following initiatives:	
<ul style="list-style-type: none">• <i>Continuing to Enhance Execution of the Off-Price Model.</i> We plan to drive comparable store sales by focusing on product freshness to ensure that we consistently deliver newness to the selling floors. We plan to continue to reduce comparable store inventories which we believe will result in faster inventory turnover. We maintain our ability to leverage our pack-and-hold program which is designed to take advantage of terrific buys of either highly desirable branded product or key seasonal merchandise for the next year. While the amount of goods we purchase on pack-and-hold is purely based on the right opportunities in the marketplace, this continues to be a great avenue to source product. We also intend to use our business intelligence systems to identify sell-through rates by product, capitalize on strong performing categories, identify and buy into new fashion trends and opportunistically acquire products in the marketplace.• <i>Sharpening Focus on Our Core Female Customer.</i> We have focused on better serving our core female customer, a brand-conscious fashion enthusiast, aged 25-49, with an average annual household income of \$25,000-\$75,000, by improving our product offering, store merchandising and marketing focus on women's ready-to-wear apparel and accessories to capture incremental sales from our core female customer and become a destination for her across all categories. We believe that these efforts will increase the frequency of her visits and her average spend, further improving the comparable store sales performance in women's categories.• <i>Continuing to Improve Our Customer Experience.</i> We have significantly enhanced the store experience and ease of shopping at all of our stores by implementing a comprehensive program focused on offering more brands and styles and simplifying store navigation. We have also implemented operational audits to measure performance against clearly articulated operational standards. To date, stores that have achieved superior audit scores have generated materially higher comparable store sales.	

- *Increasing Our e-Commerce Sales.* We have been selling to our customers online for more than a decade. We plan to leverage this heritage, along with our renewed focus on e-commerce, to expand our online assortment and utilize e-commerce strategies to drive incremental traffic to our stores.
- *Enhancing Existing Categories and Introducing New Ones.* We have opportunities to expand the depth and breadth of certain existing categories such as ladies' apparel, children's products and housewares and décor for the home, while continuing to remain the destination for coats, and maintaining the flexibility to introduce new categories such as bath and cosmetic merchandise.

Expanding and Enhancing Our Retail Store Base.

We intend to expand and enhance our retail store base through the following initiatives:

- *Adhering to an Opportunistic Yet Disciplined Real Estate Strategy.* We have grown our store base consistently since our founding in 1972, developing more than 99% of our stores organically, rather than through acquisition. We believe there is significant opportunity to expand our retail store base in the United States. In line with recent growth, our goal is to open approximately 25 net new stores annually and continue to do so for the foreseeable future.
- *Maintaining Focus on Unit Economics and Returns.* We have adopted a prudent approach to new store openings with a specific focus on achieving attractive unit economics and returns. This focus is demonstrated by the fact that the vast majority of our existing stores had positive Adjusted EBITDA for Fiscal 2014. By focusing on opening stores with attractive unit economics we are able to minimize costs associated with store relocations and closures, achieve attractive returns on capital and continue to grow Company margins. We continue to explore the potential for modified store formats to provide incremental growth.
- *Enhancing the Store Experience through Store Refreshes and Remodels.* Since 2006, 74% of our stores are either new, refreshed, remodeled or relocated. In our refreshed and remodeled stores, we have incorporated new flooring, painting, lighting and graphics, relocated our fitting rooms to maximize productive selling space and made various other improvements as appropriate by location. We continue to invest in store refreshes and remodels on a store-by-store basis where appropriate, taking into consideration the age, sales and profitability of a store, as well as the potential impact to the customer shopping experience.

Enhancing Operating Margins.

We intend to increase our operating margins through the following initiatives:

- *Optimize Markdowns.* We believe that our markdown system allows us to maximize sales and gross margin dollars based on forward-looking sales forecasts, sell-through targets, and exit dates. This allows us to optimize markdowns at the style and color level by store cluster.
- *Enhance Purchasing Power.* We believe that our growth and West Coast buying office provide us with the opportunity to capture incremental buying opportunities and realize economies of scale in our merchandising and non-merchandising purchasing activities.
- *Drive Operating Leverage.* We believe that we will be able to leverage our growing sales over the fixed costs of our business. In addition, we are focused on continuing to improve the efficiency of our corporate and in-store operations. Furthermore, we expect operating costs to grow less rapidly in the future.

Our successful execution of these growth strategies may be affected by challenges or risks outside of our control, including but not limited to an incremental slowdown in the U.S. economy, increased competition from other retailers, and unforeseen legal or regulatory changes.

- (1) Fiscal 2012 consisted of 53 weeks. Fiscal 2013 and Fiscal 2014 consisted of 52 weeks.
- (2) The numerator in calculating the pro forma basic and diluted net income per share is consolidated net income. The denominator in calculating the pro forma basic net income per share is the weighted-average common shares outstanding during the period effected for the Reclassification (as defined below) plus the 15,333,333 shares of common stock issued by the Company in our initial public offering as if the offering occurred on February 3, 2013. The issuance of 15,333,333 shares have been included in the denominator as the dividend declared in February 2013, which exceeded the Company's prior twelve month earnings, was in contemplation of the offering. The denominator in calculating the pro forma diluted earnings per share gives effect to potential dilutive common shares, calculated in accordance with the treasury stock method.
- (3) We define working capital as current assets (excluding restricted cash) minus current liabilities.
- (4) Prior to our initial public offering, each outstanding share of the Company's Class A common stock was automatically cancelled and then each outstanding share of the Company's Class L common stock was automatically converted into one share of the Company's Class A common stock. The Company then effected an 11-for-1 split of the Company's Class A common stock and then reclassified the Company's Class A common stock into common stock. Collectively, these transactions are referred to as the "Reclassification."
- (5) In February 2013, we declared a special cash dividend of approximately \$336.0 million (\$5.89/unit) to our stockholders from the proceeds of the offering of our 9.00%/9.75% Senior Notes due 2018 (the "Holdco Notes") by Burlington Holdings, LLC and Burlington Holdings Finance, Inc., payable to Class A and Class L stockholders on a pro rata basis.
- (6) The number of stores is inclusive of an internet store.
- (7) We define comparable store sales as sales of those stores, including online sales, commencing on the first day of the fiscal month one year after the end of their grand opening activities, which normally conclude within the first two months of operations.

- (8) Comparable Store Inventory Turnover is calculated by dividing comparable store retail sales by the average comparable store retail value of inventory for the period being measured. The calculation is based on a rolling 13 month average of inventory and the last 12 months' comparable store sales.
- (9) The following tables calculate our Adjusted Net Income and Adjusted EBITDA. Adjusted Net Income and Adjusted EBITDA are non-GAAP financial measures.

Adjusted Net Income is defined as net income (loss), exclusive of the following items: (i) net favorable lease amortization; (ii) costs related to debt amendments, secondary offerings, termination of our advisory agreement with Bain Capital (the "Advisory Agreement") and other; (iii) stock option modification expense; (iv) loss on extinguishment of debt; (v) impairment charges; (vi) advisory fees; (vii) litigation accruals charged during the fourth quarter of Fiscal 2014 for Song Beverly and (viii) other unusual, non-recurring or extraordinary expenses, losses or charges, all of which are tax effected to arrive at Adjusted Net Income.

Adjusted EBITDA is defined as net income (loss), exclusive of (i) interest expense, net; (ii) loss on extinguishment of debt; (iii) income tax expense (benefit); (iv) depreciation and amortization; (v) impairment charges; (vi) advisory fees; (vii) stock option modification expense; (viii) costs related to debt amendments, secondary offerings, termination of Advisory Agreement and other; (ix) litigation accruals charged during the fourth quarter of Fiscal 2014 for Song Beverly and (x) other unusual, non-recurring or extraordinary expenses, losses or charges.

We present Adjusted Net Income and Adjusted EBITDA because we believe they are useful supplemental measures in evaluating the performance of our business and provide greater transparency into our results of operations. Adjusted Net Income and Adjusted EBITDA provide management, including our chief operating decision maker, with helpful information with respect to our operations.

RISK FACTORS

Investing in our common stock involves a number of risks. Before you purchase our common stock, you should carefully consider the risks described below and the other information contained in or incorporated by reference into this prospectus supplement, including our consolidated financial statements and accompanying notes. You should carefully consider the risks and uncertainties described in the section entitled “Risk Factors” in our 2014 Form 10-K, as supplemented and modified by the below. If any of those or the following risks actually occurs, our business, financial condition, results of operation or cash flows could be materially adversely affected. In any such case, the trading price of our common stock could decline, and you could lose all or part of your investment.

Risks Related to this Offering and Ownership of Our Common Stock

Our stock price may be volatile or may decline regardless of our operating performance, and you may not be able to resell your shares at or above the price you paid for them.

Volatility in the market price of our common stock may prevent you from being able to sell your shares at or above the price you paid for them. Since our initial public offering in October 2013, the price of our common stock, as reported by NYSE, has ranged from a low of \$21.54 on December 10, 2013 to a high of \$61.94 on March 23, 2015. The market price of our common stock may fluctuate significantly in response to a number of factors, many of which we cannot control, including those described under “Risk Factors—Risks Related to Our Business and Our Substantial Indebtedness” in our 2014 Form 10-K, which are incorporated by reference into this prospectus supplement, and the following:

- changes in financial estimates by any securities analysts who follow our common stock, our failure to meet these estimates or failure of those analysts to initiate or maintain coverage of our common stock;
- downgrades by any securities analysts who follow our common stock;
- future sales of our common stock by our officers, directors and significant stockholders;
- market conditions or trends in our industry or the economy as a whole and, in particular, in the retail sales environment;
- investors’ perceptions of our prospects;
- announcements by us or our competitors of significant contracts, acquisitions, joint ventures or capital commitments; and
- changes in key personnel.

In addition, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies, including companies in the retail industry. In the past, stockholders have instituted securities class action litigation following periods of market volatility. If we were involved in securities litigation, we could incur substantial costs, and our resources and the attention of management could be diverted from our business.

As of October 10, 2014, we are no longer a “controlled company” within the meaning of the NYSE rules and the rules of the SEC. However, we may continue to rely on exemptions from certain corporate governance requirements during a one year transition period.

As of October 10, 2014, Bain Capital no longer controls a majority of the voting power of our outstanding common stock and we are no longer a “controlled company” within the meaning of the corporate governance rules of the NYSE. Consequently, under the NYSE corporate governance rules, we are required to (i) appoint a majority of independent directors to our Board of Directors within one year of the date we no longer qualify as a

“controlled company,” (ii) have our compensation and nominating and corporate governance committees be composed entirely of independent directors within one year of such date and (iii) have an annual performance evaluation of the nominating and corporate governance and compensation committees. During these transition periods, we may continue to utilize the available exemptions from certain corporate governance requirements as permitted by the NYSE rules. Accordingly, during the transition periods, you will not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance standards.

Future sales of our common stock, or the perception in the public markets that these sales may occur, may depress our stock price.

Sales of substantial amounts of our common stock in the public market after this offering, or the perception that these sales could occur, could adversely affect the price of our common stock and could impair our ability to raise capital through the sale of additional shares. As of March 26, 2015, we had 75,406,759 shares of common stock outstanding. The shares of common stock offered in this offering by the selling stockholders, in addition to the 15,333,333 shares that were sold in our initial public offering and the 42,300,000 shares sold in our previous secondary offerings, will be freely tradable without restriction under the Securities Act of 1933, as amended (the “Securities Act”), except for any shares of our common stock that may be held or acquired by our directors, executive officers and other affiliates, as that term is defined in the Securities Act, which will be restricted securities under the Securities Act. Restricted securities may not be sold in the public market unless the sale is registered under the Securities Act or an exemption from registration is available.

All of our shares of common stock outstanding as of the date of this prospectus supplement that are subject to lock-up agreements may be sold in the public market by existing stockholders after the expiration of the lock-up agreements, subject to applicable volume and other limitations imposed under federal securities laws. After this offering, subject to any lock-up restrictions described above with respect to certain holders, holders of approximately 1.8 million shares of our common stock will have the right to require us to register the sales of their shares under the Securities Act, under the terms of an agreement between us and the holders of these securities. In addition, we registered with the SEC the issuance of shares of common stock pursuant to outstanding options under our 2006 Management Incentive Plan (as amended and restated, the “2006 Incentive Plan”) and shares of common stock that are reserved for issuance under the 2006 Incentive Plan and our 2013 Omnibus Incentive Plan.

In the future, we may also issue our securities in connection with investments or acquisitions. The amount of shares of our common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding shares of our common stock.

As a public company, we are subject to additional financial and other reporting and corporate governance requirements that may be difficult for us to satisfy and may divert management’s attention from our business.

As a public company, we are required to file annual and quarterly reports and other information pursuant to the Exchange Act with the SEC. We are required to ensure that we have the ability to prepare consolidated financial statements that comply with SEC reporting requirements on a timely basis. We are also subject to other reporting and corporate governance requirements, including the applicable stock exchange listing standards and certain provisions of the Sarbanes-Oxley Act and the regulations promulgated thereunder, which impose significant compliance obligations upon us. Specifically, we are required to:

- prepare and distribute periodic reports and other stockholder communications in compliance with our obligations under the federal securities laws and applicable stock exchange rules;
- maintain the roles and duties of our Board of Directors and committees of the Board of Directors in compliance with the NYSE continued listing rules and the Sarbanes-Oxley Act;
- maintain compliance and internal audit functions;

Table of Contents

- evaluate and maintain our system of internal control over financial reporting, and report on management’s assessment thereof, in compliance with the requirements of Section 404 of the Sarbanes-Oxley Act (“Section 404”) and the related rules and regulations of the SEC and the Public Company Accounting Oversight Board;
- maintain our investor relations function in compliance with the NYSE continued listing rules and the Sarbanes-Oxley Act;
- maintain internal policies, including those relating to disclosure controls and procedures; and
- involve and retain outside legal counsel and accountants in connection with the activities listed above.

As a public company, we are required to commit significant resources and management time and attention to the above-listed requirements, which cause us to incur significant costs and which place a strain on our systems and resources. As a result, our management’s attention might be diverted from other business concerns. In addition, we might not be successful in implementing these requirements. Compliance with these requirements will place significant demands on our legal, accounting and finance staff and on our accounting, financial and information systems and will increase our legal and accounting compliance costs as well as our compensation expense as we may be required to hire additional accounting, tax, finance and legal staff with the requisite technical knowledge.

In addition, the Sarbanes-Oxley Act requires that we maintain effective disclosure controls and procedures and internal control over financial reporting. To maintain and improve the effectiveness of our disclosure controls and procedures, significant resources and management oversight is required. We implemented additional procedures and processes for the purpose of addressing the standards and requirements applicable to public companies. We incur certain additional annual expenses related to these activities and, among other things, additional directors’ and officers’ liability insurance, director fees, reporting requirements, transfer agent fees, hiring additional accounting, legal and administrative personnel, increased auditing and legal fees and similar expenses.

Failure to comply with requirements to design, implement and maintain effective internal controls could have a material adverse effect on our business and stock price.

As a public company, we have significant requirements for enhanced financial reporting and internal controls. The process of designing and implementing effective internal controls is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to expend significant resources to maintain a system of internal controls that is adequate to satisfy our reporting obligations as a public company. If we are unable to establish or maintain appropriate internal financial reporting controls and procedures, it could cause us to fail to meet our reporting obligations on a timely basis, result in material misstatements in our consolidated financial statements and harm our operating results. In addition, we are required, pursuant to Section 404, to furnish a report by management on, among other things, the effectiveness of our internal control over financial reporting. This assessment includes disclosure of any material weaknesses identified by our management in our internal control over financial reporting, and must include a statement that our auditors have issued an attestation report on effectiveness of our internal controls. Testing and maintaining internal controls may divert our management’s attention from other matters that are important to our business. We may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404 or our independent registered public accounting firm may not issue an unqualified opinion. If either we are unable to conclude that we have effective internal control over financial reporting or our independent registered public accounting firm is unable to provide us with an unqualified report, investors could lose confidence in our reported financial information, which could have a material adverse effect on the trading price of our stock.

Anti-takeover provisions in our charter documents and Delaware law might discourage or delay acquisition attempts for us that you might consider favorable.

Our amended and restated certificate of incorporation and amended and restated bylaws contain provisions that may make the acquisition of the Company more difficult without the approval of our Board of Directors. These provisions:

- authorize the issuance of undesignated preferred stock, the terms of which may be established and the shares of which may be issued without stockholder approval, and which may include super voting, special approval, dividend, or other rights or preferences superior to the rights of the holders of common stock;
- prohibit stockholder action by written consent, requiring all stockholder actions be taken at a meeting of our stockholders;
- provide that the Board of Directors is expressly authorized to make, alter or repeal our amended and restated bylaws;
- establish advance notice requirements for nominations for elections to our Board of Directors or for proposing matters that can be acted upon by stockholders at stockholder meetings;
- establish a classified Board of Directors, as a result of which our Board of Directors is divided into three classes, with each class serving for staggered three-year terms, which prevents stockholders from electing an entirely new Board of Directors at an annual meeting;
- limit the ability of stockholders to remove directors;
- prohibit stockholders from calling special meetings of stockholders; and
- require the approval of holders of at least 75% of the outstanding shares of our voting common stock to amend the amended and restated bylaws and certain provisions of the amended and restated certificate of incorporation.

These anti-takeover provisions and other provisions under Delaware law could discourage, delay or prevent a transaction involving a change in control of the Company, even if doing so would benefit our stockholders. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and to cause us to take other corporate actions you desire. For a further discussion of these and other such anti-takeover provisions, see “Description of Capital Stock—Anti-takeover Effects of our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws” included elsewhere in the prospectus.

Our amended and restated certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees.

Our amended and restated certificate of incorporation provides that, subject to limited exceptions, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees to us or our stockholders, (iii) any action asserting a claim against us arising pursuant to any provision of the Delaware General Corporation Law, our certificate of incorporation or our by-laws, or (iv) any other action asserting a claim against us that is governed by the internal affairs doctrine.

Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and to have consented to the provisions of our certificate of incorporation described above. This choice of forum provision may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find these

provisions of our amended and restated certificate of incorporation inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business and financial condition.

If securities or industry analysts do not publish research or publish inaccurate or unfavorable research about our business, our stock price and trading volume could decline.

The trading market for our common stock depends in part on the research and reports that securities or industry analysts publish about us or our business. If one or more of the analysts who covers us downgrades our common stock or publishes inaccurate or unfavorable research about our business, our stock price would likely decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, demand for our common stock could decrease, which could cause our stock price and trading volume to decline.

Provisions of our amended and restated certificate of incorporation could have the effect of preventing us from having the benefit of certain business opportunities that it may otherwise be entitled to pursue.

Our amended and restated certificate of incorporation provides that Bain Capital and its affiliates are not required to offer corporate opportunities of which they become aware to us and could, therefore, offer such opportunities instead to other companies including affiliates of Bain Capital. In the event that Bain Capital obtains business opportunities from which we might otherwise benefit but chooses not to present such opportunities to us, these provisions of our amended and restated certificate of incorporation could have the effect of preventing us from pursuing transactions or relationships that would otherwise be in the best interests of our stockholders. See “Description of Capital Stock—Corporate Opportunity” included elsewhere in the prospectus.

Because we do not intend to pay cash dividends in the near term, you may not receive any return on investment unless you are able to sell your common stock for a price greater than your purchase price.

The continued operation and expansion of our business will require substantial funding. Accordingly, we do not anticipate that we will pay any cash dividends on shares of our common stock in the near term. Any determination to pay dividends in the future will be at the discretion of our Board of Directors and will depend upon results of operations, financial condition, contractual restrictions, including those under our Second Amended and Restated Credit Agreement (as amended, the “ABL Line of Credit”) and Term Loan Credit Agreement, any potential indebtedness we may incur, restrictions imposed by applicable law and other factors our Board of Directors deems relevant. Accordingly, if you purchase shares in this offering, realization of a gain on your investment will depend on the appreciation of the price of our common stock, which may never occur. Investors seeking cash dividends in the near term should not purchase our common stock.

We are a holding company and rely on dividends, distributions and other payments, advances and transfers of funds from our subsidiaries to meet our obligations.

We are a holding company that does not conduct any business operations of our own. As a result, we are largely dependent upon cash dividends and distributions and other transfers from our subsidiaries to meet our obligations. The deterioration of income from, or other available assets of, our subsidiaries for any reason could limit or impair their ability to pay dividends or other distributions to us.

Bain Capital is the principal selling stockholder in this offering and will receive substantial benefits from the sale of shares in this offering.

Our largest stockholder, Bain Capital, is offering 10,667,286 shares of our common stock in this offering and accordingly, Bain Capital will receive a substantial portion of the proceeds from the sales of shares in this offering. The interests of Bain Capital may not be consistent with our interests or the interests of our other stockholders.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of our common stock by any selling stockholder named herein. All of the shares of common stock offered by the selling stockholders pursuant to this prospectus supplement will be sold by the selling stockholders for their own account. We may, however, bear a portion of the expenses of the offering of common stock by the selling stockholders, except that the selling stockholders will pay any applicable underwriting fees, discounts or commissions and certain transfer taxes.

Our common stock began trading on the NYSE under the symbol “BURL” on October 2, 2013. Prior to that, there was no public market for our common stock. On March 30, 2015, the closing price of our common stock as reported by Bloomberg was \$59.34 per share. As of March 26, 2015, we had 149 holders of record of our common stock.

DIVIDEND POLICY

We currently do, and intend to continue to, retain all available funds and any future earnings to fund the development and growth of our business and pay down debt as appropriate. Therefore, at this time, we do not anticipate paying cash dividends in the near term. Our ability to pay dividends on our common stock will be limited by restrictions on the ability of our subsidiaries and us to pay dividends or make distributions under the terms of current and any future agreements governing our indebtedness. Any future determination to pay dividends will be at the discretion of our Board of Directors, subject to compliance with covenants in our current and future agreements governing our indebtedness, and will depend upon our results of operations, financial condition, capital requirements and other factors that our Board of Directors deems relevant.

In addition, since we are a holding company, substantially all of the assets shown on our consolidated balance sheets are held by our subsidiaries. Accordingly, our earnings, cash flow and ability to pay dividends are largely dependent upon the earnings and cash flows of our subsidiaries and the distribution or other payment of such earnings to us in the form of dividends.

SELLING STOCKHOLDERS

Unless otherwise indicated, the following table shows information about the beneficial ownership of our common stock, as of March 26, 2015 by each stockholder selling shares in this offering.

For further information regarding material transactions between us and certain of our stockholders, see “Certain Relationships and Related Party Transactions” in our 2014 Proxy Statement, which is incorporated by reference into this prospectus supplement.

The percentages listed below for common stock owned before the offering are based on 75,406,759 shares of our common stock outstanding as of March 26, 2015. Percentage ownership of our common stock after the offering assumes the sale of shares of common stock in this offering.

Upon the completion of this offering, Bain Capital will own none of our common stock.

CERTAIN U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

Overview

The following is a general summary of certain U.S. federal income and estate tax consequences to non-U.S. holders, as defined below, of the ownership and disposition of shares of our common stock. This summary deals only with shares of common stock purchased in this offering that are held as capital assets (generally, property held for investment) by a non-U.S. holder.

For purposes of this discussion, except as modified for U.S. federal estate tax purposes (as discussed below), a “non-U.S. holder” means a beneficial owner of shares of our common stock that, for U.S. federal income tax purposes, is not any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- any entity or arrangement treated as a partnership for U.S. federal income tax purposes;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

If any entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a partner in such partnership generally will depend upon the status of the partner and the activities of the partner and the partnership. If you are a partner of a partnership considering an investment in shares of our common stock, you should consult your own tax advisors.

This summary is based upon provisions of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), applicable U.S. Treasury regulations, rulings and other administrative pronouncements and judicial decisions, all as of the date hereof. Those authorities are subject to different interpretations and may be changed, perhaps retroactively, so as to result in U.S. federal income and estate tax consequences different from those summarized below. We cannot assure you that a change in law will not alter significantly the tax considerations described in this summary.

This summary does not address all aspects of U.S. federal income and estate taxation, does not address any aspects of the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010 and does not deal with the alternative minimum tax or other federal taxes (such as gift tax) or with foreign, state or local tax considerations that may be relevant to non-U.S. holders in light of their particular circumstances. In addition, this summary does not describe the U.S. federal income tax consequences applicable to you if you are subject to special treatment under U.S. federal income tax laws (including if you are a U.S. expatriate, a financial institution, an insurance company, a tax-exempt organization, a trader, broker or dealer in securities or currencies, a “controlled foreign corporation,” a “passive foreign investment company,” an entity treated as a partnership or other pass-through entity for U.S. federal income tax purposes (or an investor in such a pass-through entity), a person who acquired shares of our common stock as compensation or otherwise in connection with the performance of services, or a person who has acquired shares of our common stock as part of a straddle, hedge, conversion transaction or other integrated investment).

We have not sought and do not expect to seek any rulings from the U.S. Internal Revenue Service (the “IRS”) regarding the matters discussed below. There can be no assurance that the IRS will not take positions concerning the tax consequences of the ownership or disposition of shares of our common stock that differ from those discussed below.

This summary is for general information only and is not intended to constitute a complete description of all U.S. federal income and estate tax consequences for non-U.S. holders relating to the ownership and disposition of shares of our common stock. If you are considering the purchase of shares of our common stock, you should consult your own tax advisors concerning the particular U.S. federal income and estate tax consequences to you of the ownership and disposition of shares of our common stock, as well as the consequences to you arising under other U.S. federal tax laws and the laws of any other applicable taxing jurisdiction in light of your particular circumstances.

This discussion generally assumes that a non-U.S. holder will structure its investment in shares of our common stock so as to avoid the additional withholding tax described below under “—Legislation Affecting Taxation of Common Stock Held by or Through Foreign Entities.”

Dividends

In general, cash distributions on shares of our common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent any such distributions exceed both our current and our accumulated earnings and profits, they will first be treated as a return of capital reducing your tax basis in our common stock (determined on a share by share basis), but not below zero, and then will be treated as gain from the sale of stock.

As discussed under “Dividend Policy” above, we do not currently expect to pay dividends. In the event that we do pay dividends, dividends paid to a non-U.S. holder generally will be subject to a U.S. federal withholding tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business within the United States by a non-U.S. holder generally will not be subject to such withholding tax, provided certain certification and disclosure requirements are satisfied (including the provision of a properly completed IRS Form W-8ECI or other applicable form). Instead, unless an applicable income tax treaty provides otherwise, such dividends will generally be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a U.S. person as defined under the Code. A corporate non-U.S. holder may be subject to an additional “branch profits tax” on its earnings and profits (subject to adjustments) that are effectively connected with its conduct of a U.S. trade or business (unless an applicable income tax treaty provides otherwise).

A non-U.S. holder of shares of our common stock who wishes to claim the benefit of an applicable treaty rate for dividends will be required (a) to complete IRS Form W-8BEN or W-8BEN-E (or other applicable form) and certify under penalty of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits, or (b) if shares of our common stock are held through certain foreign intermediaries, satisfy the relevant certification requirements of applicable United States Treasury regulations.

A non-U.S. holder of shares of our common stock eligible for a reduced rate of United States federal withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Disposition of Shares of Common Stock

Subject to the discussions below of the backup withholding tax and the FATCA legislation, any gain realized by a non-U.S. holder on the sale or other disposition of shares of our common stock generally will not be subject to United States federal income tax unless:

- the gain is effectively connected with a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment);
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

[Table of Contents](#)

- we are or have been a U.S. real property holding corporation (a “USRPHC”) for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of the disposition or the period that the non-U.S. holder held shares of our common stock (the “applicable period”).

In the case of a non-U.S. holder described in the first bullet point above, any gain generally will be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a U.S. person as defined under the Code (unless an applicable income tax treaty provides otherwise), and a non-U.S. holder that is a foreign corporation may also be subject to the branch profits tax at a rate of 30% on its effectively connected earnings and profits (subject to adjustments), unless an applicable income tax treaty provides otherwise. Except as otherwise provided by an applicable income tax treaty, an individual non-U.S. holder described in the second bullet point above will be subject to a 30% tax on any gain derived from the sale, which may be offset by certain U.S. source capital losses, even though the individual is not considered a resident of the United States under the Code.

We believe we are not and do not anticipate becoming a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property relative to the fair market value of other business assets, there can be no assurance that we are not currently or will not become a USRPHC in the future. Even if we are or become a USRPHC, so long as our common stock is regularly traded on an established securities market, a non-U.S. holder will be subject to U.S. federal income tax on any gain not otherwise taxable only if such non-U.S. holder actually or constructively owned more than five percent of our outstanding common stock at some time during the applicable period. You should consult your own tax advisor about the consequences that could result if we are, or become, a USRPHC.

Information Reporting and Backup Withholding

The amount of dividends paid to each non-U.S. holder, and the tax withheld with respect to such dividends will be reported annually to the IRS and to each such holder, regardless of whether withholding was reduced or eliminated by an applicable tax treaty. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides or is established under the provisions of an applicable income tax treaty or agreement.

A non-U.S. holder generally will be subject to backup withholding with respect to dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. person (and the payor does not have actual knowledge or reason to know that such holder is a U.S. person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition by a non-U.S. holder of shares of our common stock within the United States or conducted through certain U.S.-related financial intermediaries unless such non-U.S. holder certifies under penalty of perjury that it is not a U.S. person (as defined under the Code), and the payor does not have actual knowledge or reason to know that the non-U.S. holder is a United States person, or such non-U.S. holder otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Legislation Affecting Taxation of Common Stock Held by or Through Foreign Entities

Legislation enacted in 2010, known as the “FATCA” legislation, generally imposes a withholding tax of 30% on dividend income from our common stock and on the gross proceeds of a sale or other disposition of our common stock paid to a “foreign financial institution” (as specifically defined for this purpose), unless such

[Table of Contents](#)

institution enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). Absent any applicable exception, this legislation also generally imposes a withholding tax of 30% on dividend income from our common stock and the gross proceeds of a sale or other disposition of our common stock paid to a foreign entity that is not a foreign financial institution unless such entity provides the applicable withholding agent either with (i) a certification identifying the substantial U.S. owners of the entity, which generally includes any U.S. person who directly or indirectly owns more than 10% of the entity (or more than zero percent in the case of some entities) or (ii) a certification that the entity does not have any substantial U.S. owners. The foregoing withholding tax applies in certain circumstances regardless of whether such foreign financial institution or foreign entity is a beneficial owner or is acting as an intermediary. Under certain circumstances, a non-U.S. holder of our common stock might be eligible for refunds or credits of such withholding taxes, and a non-U.S. holder might be required to file a U.S. federal income tax return to claim such refunds or credits. Under final Treasury regulations, this legislation does not apply to payments of gross proceeds until after December 31, 2016. Non-U.S. holders should consult their own tax advisors regarding the implications of this legislation on their investment in our common stock.

U.S. Federal Estate Tax

Shares of our common stock that are owned (or deemed to be owned) at the time of death by an individual who is neither a citizen nor a resident of the United States (as specifically defined for estate tax purposes) will be includable in such individual's taxable estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

THE SUMMARY OF CERTAIN U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS ABOVE IS INCLUDED FOR GENERAL INFORMATION PURPOSES ONLY. POTENTIAL PURCHASERS OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE U.S. FEDERAL, STATE AND LOCAL AND NON-U.S. INCOME, ESTATE AND OTHER TAX CONSIDERATIONS OF OWNING AND DISPOSING OF OUR COMMON STOCK.

UNDERWRITING

J.P. Morgan Securities LLC is acting as underwriter of the offering. Subject to the terms and conditions set forth in an underwriting agreement between us, the selling stockholders and the underwriter, the selling stockholders have agreed to sell to the underwriter, and the underwriter has agreed to purchase from the selling stockholders 12,490,154 shares of our common stock.

We and the selling stockholders have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriter may be required to make in respect of those liabilities.

The underwriter is purchasing the shares of common stock from the selling stockholders at \$58.77 per share (representing approximately \$734.0 million of gross proceeds to the selling stockholders). The underwriter may offer the shares of common stock from time to time for sale in one or more transactions on the New York Stock Exchange, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. In connection with the sale of the shares of common stock offered hereby, the underwriter may be deemed to have received compensation in the form of underwriting discounts. The underwriter may effect such transactions by selling shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principal.

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing (other than filings on Form S-8 relating to our employee benefit plans), or (ii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any shares of common stock or any such other securities (regardless of whether any of these transactions are to be settled by the delivery of shares of common stock or such other securities, in cash or otherwise), in each case without the prior written consent of J.P. Morgan Securities LLC, for a period of 30 days after the date of this prospectus, subject to certain exceptions. Notwithstanding the foregoing, if (1) during the last 17 days of the 30-day restricted period we issue an earnings release or announce material news or a material event relating to our company; or (2) prior to the expiration of the 30-day restricted period we announce that we will release earnings results during the 16-day period beginning on the last day of the 30-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Our chief executive officer has entered into a lock-up agreement with the underwriter prior to the commencement of this offering pursuant to which he, with limited exceptions, for a period of 30 days after the date of this prospectus, may not, without the prior written consent of J.P. Morgan Securities LLC, (1) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock (including, without limitation, common stock or such other securities which may be deemed to be beneficially owned by such person in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant) or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock. Notwithstanding the foregoing, if (1) during the last 17 days

of the 30-day restricted period we issue an earnings release or announce material news or a material event relating to our company; or (2) prior to the expiration of the 30-day restricted period we announce that we will release earnings results during the 16-day period beginning on the last day of the 30-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Our common stock is listed on the New York Stock Exchange under the symbol “BURL.”

In connection with this offering, the underwriter may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriter of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. The underwriter may close out any covered short position by purchasing shares in the open market.

The underwriter has advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriter commences these activities, it may discontinue them at any time. The underwriter may carry out these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise.

Other than in the United States, no action has been taken by us or the underwriter that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus comes are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities offered by this prospectus in any jurisdiction in which such an offer or a solicitation is unlawful.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “Relevant Member State”), from and including the date on which the European Union Prospectus Directive (the “EU Prospectus Directive”) was implemented in that Relevant Member State (the “Relevant Implementation Date”) an offer of securities described in this prospectus supplement may not be made to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the EU Prospectus Directive, except that, with effect from and including the Relevant Implementation Date, an offer of securities described in this prospectus may be made to the public in that Relevant Member State at any time:

- to any legal entity which is a qualified investor as defined under the EU Prospectus Directive including:
 - a) (in the case of Relevant Member States that have not implemented the 2010 PD Amending Directive), legal entities which are authorized or regulated to operate in the financial markets or, if

not so authorized or regulated, whose corporate purpose is solely to invest in securities, or any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; and

- b) (in the case of Relevant Member States that have implemented the 2010 PD Amending Directive), persons or entities that are described in points (1) to (4) of Section I of Annex II to Directive 2004/39/EC, and those who are treated on request as professional clients in accordance with Annex II to Directive 2004/39/EC, or recognized as eligible counterparties in accordance with Article 24 of Directive 2004/39/EC unless they have requested that they be treated as non-professional clients; or
- to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the EU Prospectus Directive); or
- in any other circumstances falling within Article 3(2) of the EU Prospectus Directive, provided that no such offer of securities described in this prospectus shall result in a requirement for the publication by us of a prospectus pursuant to Article 3 of the EU Prospectus Directive.

Each person in a Relevant Member State who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a “qualified investor” within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than “qualified investors” as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the underwriter has been obtained to each such proposed offer or resale.

We, the underwriter and its affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

This prospectus supplement has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for us or the underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither we nor the underwriter have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for us or the underwriter to publish a prospectus for such offer.

For the purposes of this provision, the expression an “offer of securities to the public” in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the same may be varied in that Member State by any measure implementing the EU Prospectus Directive in that Member State. The expression “EU Prospectus Directive” means Directive 2003/71/EC (and any amendments thereto, including the 2010 PD Amending Directive, to the

[Table of Contents](#)

extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State, and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

MARKET, RANKING AND OTHER INDUSTRY DATA

In this prospectus, including information incorporated by reference herein, we rely on and refer to information and statistics regarding our industry, the size of certain markets and our position within the sectors in which we compete. Some of the market and industry data contained in or incorporated by reference into this prospectus are based on independent industry publications or other publicly available information, while other information is based on our good faith estimates, which are derived from our review of internal surveys, as well as independent sources listed in this prospectus including the industry research firm The NPD Group, Inc. (“The NPD Group”), and our management’s knowledge and experience in the markets in which we operate. Our estimates have also been based on information obtained from our customers, suppliers and other contacts in the markets in which we operate. We believe that these independent sources and our internal data are reliable as of their respective dates.

SUMMARY

The following summary highlights information contained elsewhere or incorporated by reference into this prospectus. It may not contain all the information that may be important to you. You should read this entire prospectus carefully, including the section titled “Risk Factors” and our historical consolidated financial statements and related notes incorporated by reference to our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q.

Company Overview

Founded in 1972, we are a national off-price retailer of high quality branded apparel, operating 523 stores as of August 2, 2014, inclusive of an internet store, in 44 states and Puerto Rico. We are a market leader in the fast growing off-price retail channel. We offer our merchandise using an Every Day Low Price (“EDLP”) model with savings up to 60-70% off department and specialty store regular prices. We provide our customers an extensive selection of better and moderate, fashionable branded product in women’s ready-to-wear apparel, menswear, youth apparel, baby products, footwear, accessories, home goods and coats. We feature merchandise from over 4,500 vendors, with a focus on major nationally-recognized brands. This vendor breadth provides our customers with a “treasure hunt” experience of searching for great brands at great value.

Our average store size is approximately 79,000 square feet, which is two to three times the size of our largest off-price competitors’ stores. Our larger store size has allowed us to offer more categories and substantially more breadth in each product category than our off-price competitors and to establish ourselves as a destination for select categories, including coats, youth and baby, special-occasion dresses and men’s tailored apparel. We believe that our leadership in the off-price channel in select categories and our broad and diverse merchandise offering allow our stores to attract customers from beyond their local trade areas.

Large and Growing Off-Price Channel

We operate within the large and growing off-price channel in the United States. According to The NPD Group, the off-price apparel channel grew at a 5% compound annual growth rate (“CAGR”) during the four years ending December 2013. Over that period, sales in the off-price channel have grown over 10 times faster than the department store and national chain channels. We believe that the increasing demand for the off-price channel will continue to be driven by consumers’ growing focus on, and preference for, the value available at off-price retailers.

RISK FACTORS

Our business is subject to uncertainties and risks. You should carefully consider and evaluate all of the information included and incorporated by reference in this prospectus, including the risk factors incorporated by reference from our most recent annual report on Form 10-K, as updated by our quarterly reports on Form 10-Q and other filings we make with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, before making an investment decision. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. If we do update one or more forward-looking statements, no inference should be made that we will make additional updates with respect to those or other forward-looking statements.

USE OF PROCEEDS

Unless otherwise indicated in any applicable prospectus supplement, we will not receive any proceeds from the sale of shares of our common stock by any selling stockholder named in such prospectus supplement. All of the shares of common stock offered by the selling stockholders pursuant to this prospectus will be sold by the selling stockholders for their own account. We may, however, bear a portion of the expenses of the offering of common stock by the selling stockholders, except that the selling stockholders will pay any applicable underwriting fees, discounts or commissions and certain transfer taxes

DESCRIPTION OF CAPITAL STOCK

The following summary of certain provisions of our capital stock does not purport to be complete and is subject to our amended and restated certificate of incorporation, our amended and restated bylaws and the provisions of applicable law. Copies of our amended and restated certificate of incorporation and amended and restated bylaws are incorporated by reference as exhibits to the registration statement, of which this prospectus is a part.

Authorized Capitalization

General

The total amount of our authorized capital stock consists of 500,000,000 shares of common stock, par value \$0.0001 per share, and 50,000,000 shares of undesignated preferred stock, par value \$0.0001 per share.

The following summary describes all material provisions of our capital stock. We urge you to read our amended and restated certificate of incorporation and our amended and restated bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part.

Common Stock

As of September 30, 2014, we had 74,535,201 shares of common stock outstanding. As of September 30, 2014, there were 183 stockholders of record of our common stock.

Our common stock is not entitled to preemptive or other similar subscription rights to purchase any of our securities. Our common stock is neither convertible nor redeemable. Unless our Board of Directors determines otherwise, we will issue all of our capital stock in uncertificated form.

Preferred Stock

We do not have any shares of preferred stock outstanding. Our Board of Directors has the authority to issue shares of preferred stock from time to time on terms it may determine, to divide shares of preferred stock into one or more series and to fix the designations, preferences, privileges, and restrictions of preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preference, sinking fund terms, and the number of shares constituting any series or the designation of any series to the fullest extent permitted by the General Corporation Law of the State of Delaware (the "DGCL"). The issuance of our preferred stock could have the effect of decreasing the trading price of our common stock, restricting dividends on our capital stock, diluting the voting power of our common stock, impairing the liquidation rights of our capital stock, or delaying or preventing a change in control of our company.

Voting Rights

Each holder of our common stock is entitled to one vote per share on each matter submitted to a vote of stockholders. Our amended and restated bylaws provide that the presence, in person or by proxy, of holders of shares representing a majority of the outstanding shares of capital stock entitled to vote at a stockholders' meeting shall constitute a quorum. When a quorum is present, the affirmative vote of a majority of the votes cast is required to take action, unless otherwise specified by law or our certificate of incorporation, and except for the election of directors, which is determined by a plurality vote. There are no cumulative voting rights.

Dividend Rights

Each holder of shares of our capital stock is entitled to receive such dividends and other distributions in cash, stock or property as may be declared by our Board of Directors from time to time out of our assets or funds

[Table of Contents](#)

legally available for dividends or other distributions. See the section entitled “Dividend Policy.” These rights are subject to the preferential rights of any other class or series of our preferred stock.

Other Rights

Each holder of common stock is subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock that we may designate and issue in the future. This offering is not subject to preemptive rights.

Liquidation Rights

If our company is involved in a consolidation, merger, recapitalization, reorganization, or similar event, each holder of common stock will participate pro rata in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

Anti-takeover Effects of our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws

Our amended and restated certificate of incorporation and our amended and restated bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the Board of Directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give the Board of Directors the power to discourage acquisitions that some stockholders may favor.

Action by Written Consent, Special Meeting of Stockholders and Advance Notice Requirements for Stockholder Proposals

Our amended and restated certificate of incorporation provides that stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting once Bain Capital ceases to beneficially own more than 50% of our outstanding shares. Our amended and restated certificate of incorporation and bylaws also provide that, except as otherwise required by law, special meetings of the stockholders can be called only pursuant to a resolution adopted by a majority of the total number of directors that we would have if there were no vacancies or, until the date that Bain Capital ceases to beneficially own more than 50% of our outstanding shares, at the request of holders of 50% or more of our outstanding shares. Except as described above, stockholders are not permitted to call a special meeting or to require the board of directors to call a special meeting.

In addition, our amended and restated bylaws require advance notice procedures for stockholder proposals to be brought before an annual meeting of the stockholders, including the nomination of directors. Stockholders at an annual meeting may only consider the proposals specified in the notice of meeting or brought before the meeting by or at the direction of the Board of Directors, or by a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has delivered a timely written notice in proper form to our secretary, of the stockholder’s intention to bring such business before the meeting.

These provisions could have the effect of delaying until the next stockholder meeting any stockholder actions, even if they are favored by the holders of a majority of our outstanding voting securities.

Classified Board

Our amended and restated certificate of incorporation provides that our Board of Directors is divided into three classes of directors, with the classes as nearly equal in number as possible. As a result, approximately one-

[Table of Contents](#)

third of our Board of Directors will be elected each year. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board.

Removal of Directors

Our amended and restated certificate of incorporation provides that directors may be removed with or without cause at any time upon the affirmative vote of holders of at least a majority of the votes to which all the stockholders would be entitled to cast until Bain Capital ceases to beneficially own more than 50% of our outstanding shares. After such time, directors may only be removed from office only for cause and only upon the affirmative vote of at least 75% of the voting power of our outstanding shares of common stock.

Amendment to Certificate of Incorporation and Bylaws

The DGCL provides generally that the affirmative vote of a majority of the outstanding stock entitled to vote on amendments to a corporation's certificate of incorporation or bylaws is required to approve such amendment, unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Our amended and restated bylaws may be amended, altered, changed or repealed by a majority vote of our Board of Directors, provided that, in addition to any other vote otherwise required by law, after the date on which Bain Capital ceases to beneficially own more than 50% of our outstanding shares, the affirmative vote of at least 75% of the voting power of our outstanding shares of common stock will be required to amend, alter, change or repeal our amended and restated bylaws. Additionally, after the date on which Bain Capital ceases to beneficially own more than 50% of our outstanding shares, the affirmative vote of at least 75% of the voting power of the outstanding shares of capital stock entitled to vote on the adoption, alteration, amendment or repeal of our amended and restated certificate of incorporation, voting as a single class, will be required to amend or repeal or to adopt any provision inconsistent with specified provisions of our amended and restated certificate of incorporation. This requirement of a supermajority vote to approve amendments to our amended and restated certificate of incorporation and amended and restated bylaws could enable a minority of our stockholders to exercise veto power over any such amendments.

Delaware Anti-Takeover Statute

Section 203 of the DGCL provides that if a person acquires 15% or more of the voting stock of a Delaware corporation, such person becomes an "interested stockholder" and may not engage in certain "business combinations" with the corporation for a period of three years from the time such person acquired 15% or more of the corporation's voting stock, unless: (1) the board of directors approves the acquisition of stock or the merger transaction before the time that the person becomes an interested stockholder, (2) the interested stockholder owns at least 85% of the outstanding voting stock of the corporation at the time the merger transaction commences (excluding voting stock owned by directors who are also officers and certain employee stock plans), or (3) the merger transaction is approved by the board of directors and by the affirmative vote at a meeting, not by written consent, of stockholders of 2/3 of the holders of the outstanding voting stock which is not owned by the interested stockholder. A Delaware corporation may elect in its certificate of incorporation or bylaws not to be governed by this particular Delaware law.

Under our amended and restated certificate of incorporation, we have opted out of Section 203 of the DGCL, and therefore are not subject to Section 203.

Corporate Opportunity

Our amended and restated certificate of incorporation provides that we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any business opportunity that may from time to time be presented to Bain Capital or any of its officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries (other than us and our subsidiaries) and that may be a business opportunity for Bain Capital, even if

[Table of Contents](#)

the opportunity is one that we might reasonably have pursued or had the ability or desire to pursue if granted the opportunity to do so. No such person will be liable to us for breach of any fiduciary or other duty, as a director or officer or otherwise, by reason of the fact that such person, acting in good faith, pursues or acquires any such business opportunity, directs any such business opportunity to another person or fails to present any such business opportunity, or information regarding any such business opportunity, to us unless, in the case of any such person who is our director or officer, any such business opportunity is expressly offered to such director or officer solely in his or her capacity as our director or officer. Neither Bain Capital, nor any of its representatives has any duty to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us or any of our subsidiaries.

Limitations on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation limits the liability of our directors to the fullest extent permitted by the DGCL, and our amended and restated bylaws provides that we will indemnify them to the fullest extent permitted by such law. We have entered into indemnification agreements with our current directors and executive officers and expect to enter into a similar agreement with any new directors or executive officers. We have and intend to maintain director and officer liability insurance, if available on reasonable terms.

Exclusive Jurisdiction of Certain Actions

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law that derivative actions brought in the name of the Company, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware. Although we believe this provision benefits the Company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company, LLC. Its address is 6201 15th Avenue, Brooklyn, New York 11219.

Listing

Our common stock is listed on the New York Stock Exchange under the trading symbol "BURL."

SELLING SECURITYHOLDERS

Selling securityholders may from time to time offer and sell our securities pursuant to this prospectus and any prospectus supplement. Selling securityholders are persons or entities that, directly or indirectly, have acquired or from time to time acquire, our securities. Such selling securityholders may be parties to registration rights agreements with us, or we otherwise may have agreed or agree to register their securities for resale.

The applicable prospectus supplement will set forth the name of each of the selling securityholders and the number of securities beneficially owned by such selling securityholders that are covered by such prospectus supplement.

PLAN OF DISTRIBUTION

We are registering shares of our common stock for possible sale by the selling stockholders. The selling stockholders may offer and sell shares of our common stock from time to time, in one or more or any combination of the following transactions:

- in the over-the-counter market or on any national securities exchange on which our shares are listed or traded, if any;
- in privately negotiated transactions;
- in underwritten transactions;
- in a block trade in which a broker-dealer will attempt to sell the offered shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- through purchases by a broker-dealer as principal and resale by the broker-dealer for its account pursuant to this prospectus;
- in ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- through the writing of options (including put or call options), whether the options are listed on an options exchange or otherwise;
- through loans or pledges of the securities to a broker-dealer or an affiliate thereof;
- by entering into transactions with third parties who may (or may cause others to) issue securities convertible or exchangeable into, or the return of which is derived in whole or in part from the value of, our common stock;
- a combination of any such methods; or
- any other method permitted pursuant to applicable law.

The selling stockholders may sell the shares at prices then prevailing or related to the then current market price or at negotiated prices. The offering price of the shares from time to time will be determined by the selling stockholders and, at the time of the determination, may be higher or lower than the market price of our common stock on the NYSE or any other exchange or market.

The shares may be sold directly or through broker-dealers acting as principal or agent, or pursuant to a distribution by one or more underwriters on a firm commitment or best-efforts basis. The selling stockholders may also enter into hedging transactions with broker-dealers. In connection with such transactions, broker-dealers of other financial institutions may engage in short sales of our common stock in the course of hedging the positions they assume with the selling stockholders. The selling stockholders may also enter into options or other transactions with broker-dealers or other financial institutions which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction). In connection with an underwritten offering, underwriters or agents may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or from purchasers of the offered shares for whom they may act as agents. In addition, underwriters may sell the shares to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents.

The selling stockholders and any underwriters, dealers or agents participating in a distribution of the shares may be deemed to be “underwriters” within the meaning of the Securities Act, and any profit on the sale of the shares by the selling stockholders and any commissions received by broker-dealers may be deemed to be underwriting commissions under the Securities Act.

We and the selling stockholders may enter agreements under which underwriters, dealers and agents who participate in the distribution of our common stock may be entitled to indemnification by us and/or the selling

stockholders against various liabilities, including liabilities under the Securities Act, and to contribution with respect to payments which the underwriters, dealers or agents may be required to make.

To the extent required, this prospectus may be amended and/or supplemented from time to time to describe a specific plan of distribution. Any prospectus supplement relating to a particular offering of our common stock by the selling stockholders may include the following information to the extent required by law:

- the name of the selling stockholders;
- the number of shares being offered;
- the terms of the offering;
- the names of the participating underwriters, broker-dealers or agents;
- any discounts, commissions or other compensation paid to underwriters or broker-dealers and any discounts, commissions or concessions allowed or reallocated or paid by any underwriters to dealers;
- the public offering price; and
- other material terms of the offering.

The selling stockholders will be subject to the applicable provisions of the Exchange Act, and the rules and regulations under the Exchange Act, including Regulation M. This regulation may limit the timing of purchases and sales of any of the shares of common stock offered in this prospectus by the selling stockholders. The anti-manipulation rules under the Exchange Act may apply to sales of shares in the market and to the activities of the selling stockholders and its affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities for the particular securities being distributed for a period of up to five business days before the distribution. The restrictions may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities for the shares.
